

## CAPABILITY STATEMENT

Alliance Manufacturing Group is committed to equipping the medical community with the finest emergency preparedness and medical triage equipment for use by hospitals, medical examiners, alternate care facilities, and disaster medical assistance teams. Our E-Bed System is the medical professional's complete solution to mobile patient care needs.

## DESCRIPTION

### Emergency medical bed for rapid deployment

- The E-Bed base platform easily converts to multiple products for a wide range of uses
- The E-Bed base platform may be purchased alone, or along with a conversion kits for additional functionality
- High quality materials and robust engineering ensure decades of use and superior lifetime value
- Medical grade stainless steel won't rust, corrode, or oxidize
- All surfaces are easily decontaminated and disinfected for years of repeated use
- Products are lightweight, easy to transport, and designed for simple, repeatable assembly and disassembly
- Full-swivel removable casters with locking brakes
- CPR compatible
- Molded patient support surface provides maximum patient comfort

 The E-Bed base component can easily be converted to any of these products for diversity of use, efficient storage, and easy transport
